Machining**

SEDEMI

Precision
Machining

- Precision Machining

Tailor-made solutions to optimize the operation of our clients and reduce idle time, manufacturing elements on time and quality according to schedule.

- Our Services
- Industrial Design and Machining Solutions

We have a wide range of machinery for the manufacture of mechanical components with high added value and high precision.

- ✓ Custom parts manufacturing.
- ✓ Parts reconstruction.
- ✓ Parts manufacturing in series.
- ✓ Industrial knives sharpening.
- ✓ Die-cutting and punching molds.

- Get to know our **Technology**

We have state-of-the-art technology available to all sectors that simplify the manufacturing processes of mechanical components. We are a benchmark in carrying out complex projects with high added value and high precision.

Hyundai Machining Center

KF5600 4 axis CNC vertical machining center operated by NX CAM CAD CAM software

CNC Universal Lathe Center

Emco MaxxTurn 65-1000 Lathe Center is operated by ESPRIT CAM CAD CAM software

Conventional Lathes and Mills

Variety of conventional german machinery

Axis Grinding Machine

CN axis grinding machines for better precision
